Client:	NuScience Peptides
Accession #:	2605270004
Search Code:	NuSc2605270004
Received:	05/27/2026
Reported:	05/28/2026
Lot:	0000256

Sample Summary

Product:	GHK-Cu 50mg	**Purity:**	99.92%
Identity:	Confirmed	**Net Content:**	57.57 mg
Appearance:	Blue Lyophilized Powder		

Analytical Results

Test	Result
Identity (LC-MS)	GHK-Cu
Purity (HPLC-UV)	99.92%
Net Content	57.57 mg

Method: HPLC with UV detection coupled with mass spectrometry (LC-MS).

The peptide purity analysis reported here was conducted using LCMS/MS under standard laboratory conditions. This analysis is intended for informational purposes only and is specific to the sample(s) provided. The peptides tested are intended for research use only and are not approved for human or veterinary use, diagnostic, therapeutic, or clinical applications. Results should be interpreted by qualified professionals within the scope of the intended research. The accuracy and reliability of the test may be influenced by sample integrity, handling, and other experimental variables.

Sample Summary

Product:	GHK-Cu 50mg
Appearance:	Blue Lyophilized Powder
Microbial Analysis (PCR):	Pass

Analytical Results

Test	Result	
Method: Microbial detection performed using validated polymerase chain reaction (PCR)-based assay targeting common microbial contaminants.		
Microbial Analysis (PCR)	No Detectable Microbial DNA	Pass

The endotoxin analysis reported here was performed using the Limulus Amebocyte Lysate (LAL) assay in accordance with USP <85> under validated laboratory conditions. This analysis is intended for informational purposes only and is specific to the sample(s) provided. The materials tested are intended for research use only and are not approved for human or veterinary use, diagnostic, therapeutic, or linical applications. Results should be interpreted by qualified professionals within the scope of the intended research. The accuracy and reliability of the test may be influenced by sample integrity, handling, and other experimental variables.
